Dear Reinier,

Thanks for your offer. I did make a payment of 50% of the liner kitting (4212€ see enclosed bank transfer details), so you can engage production of this right away. I do understand that transportation costs will be minimised if we can group the order. We should be able to engage the rest of the payment at the end of this week for the tanks.

Best regards,

Dear Gregory,

You may pay the first 50% before production and the remainder before shipment. Getting the materials there before the 22nd will be a close call as transport will take 4-5 days in general, so please arrange payment at shortest term possible so I can put it into production. Shipping everything at once will save much transport costs.

I'm looking forward to hear from you.

Dear Reinier,

Based on the remark at the bottom of your offer, I was expecting you could offer better payment conditions, like 50% on order, 50% before sending?

We do need the liners delivered for 22th of July on construction site. Tanks can be postponed for two weeks. We cannot pay in full before end of next week. Could you engage liner kitting on the payment of 50% ?

Grégory Biton

Mr van Dijk,

I confirm my order as planned, see our confirmation enclosed. Delivery has been changed to send directly on construction site for mounting (as delays are short).
Could you please recheck for transportation costs with a delivery at the following address :

Aquaponie Developpement
chemin de Neuville
59211 SANTES
FRANCE

Please also make sure there is no invoice in the sending and have it sent by email to me directly.

Best regards,

Hi Mr. Biton,

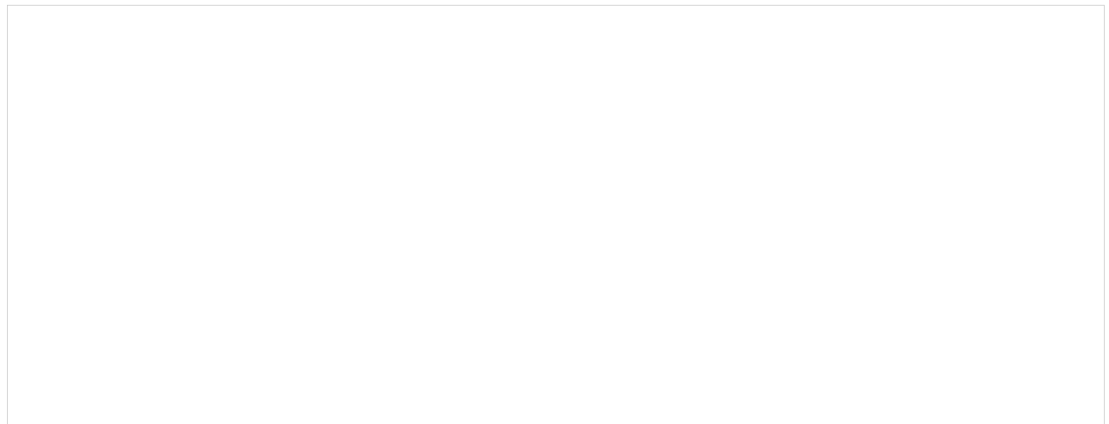

Thanks for your quick response, and please find below some answers.

- can you confirm you can meet our deadline with goods delivered on the 8th of July 2019 ?

Yes, we can meet your deadline for your requested delivery time if we can receive your order this week.

- your previous offer beginning of this year on ENPEX FPP 0,75 was 2,92€/m2 ?

Correct, this was for the 250 x 2 meters, as we did not need to process this at that time. Later for the made to measure liners I have quoted you as below screenshot.

We trust to have informed you sufficiently, and look forward to our further cooperation.
